DETAILED ACTION

Claims 1, 7-18, and 22 were previously allowed. Claim 23 has now been cancelled by the amendment filed 23 December 2003.

Claim Rejections - 35 USC § 103

The previous rejection of claim 23 under 35 U.S.C. 103(a) is now withdrawn because this claim has been cancelled.

Allowable Subject Matter

Claims 1, 7-18, and 22 remain allowed.

The following is a statement of reasons for the indication of allowable subject matter: while the concept of using a high exhaust air velocity during spin developing of an imaged resist on a semiconductor substrate is not new (for the reasons previously set forth), the specific exhaust air velocity range of about 5 meters per second to about 6 meters per second of instant claims 1, 7-18, and 22 are distinguished over the prior art, which does not teach this specific range for exhaust air velocity during spin developing.

Response to Arguments

Applicant's arguments, filed 23 December 2003, with respect to the cancellation of claim 23 have been fully considered and are persuasive. The prior rejection of claim 23 has been withdrawn because this claim has been cancelled.
